*This list reflects the companies that Ward Medical is contracted as an "In-Network" provider of Durable Medical Equipment. It does not serve as a guarantee of payment / reimbursement, nor does it guarantee that every item of Durable Medical Equipment is included in our individual agreements with the listed contracts.

Ward Medical Services follows the standard Medicare coverage guidelines for all prescribed Durable Medical Equipment, including but not limited to:

1. A "Face to Face" appointment with the approved Health Care Professional where the need for the prescribed equipment is discussed and documented in the Patient/Client Medical Record along with a qualifying medical diagnosis and supporting documentation of medical necessity.
2. Copies of the above required documentation must be received by Ward medical Services along with signed orders and any other supporting documentation prior to the distribution of equipment or supplies. Prior Authorization for equipment and supplies may be required by certain insurance companies or specific plans.
3. Ward Medical Services will seek as much information as possible prior to delivery of services in order to prevent confusion, and to help the customer understand what, if any out-of-pocket expenses may have to be paid (deductibles, co-payments or upgrades) prior to delivery.
